

World Wide Peace Bell Foundation

Helping to move Humanity from "The Love of Power to the Power of Love"

The Peace Bell Foundation celebrates its 10th anniversary with 4 Hudson River Peace Walks, 50 + Peace Poles Planted/Dedicated and new 2020 peace initiatives. Recent Peace Pole Dedications where at Fishkill Plains Elementary and Newburgh Free Academy North.

Everybody wins with Peace. - Everybody losses with War.

Proposed Plan of Action for Creating Children Who Promote Peace::

Peace is a serious, challenging and most encompassing, awareness business which effects all but mostly our children. As Marianne Williamson has said and I agree, we need to Build an Economics of Love where we know we are 90% the same and where we honor and work constructively through our differences. Mr. Rogers in his long career as a TV personality/educator has also emphasized that everyone is sacred and special with his top three laws of loving-kindness. His favorite quote from the Little Prince, "L'essentiel est invisible pour les yeux." *What's essential is invisible to the eye!*

"Love and Compassion are not luxuries, they are necessities. Without them mankind cannot survive." Dalai Lama

Peace Pole Planting/Dedication Process. 1. Meeting with the principal to discuss this important action. 2. If he/she agrees then have a brief meeting with teachers and staff to get them on board and decide a date and what special language and organizational plaques to have. 3. Meet with select bell ringers from 4-5th grade, students and staff for a brief practice. 4. Organize and have the planting and dedication with 40 international flags and the beginnings of a Peace - Flower/Rock Garden surrounding the Peace Pole. (Each customized peace pole is personalized and designed with 8 language plaques and 8 organizational plaques of your choosing...school & district logos, local peace organizations & contributors etc.) 5. Introduce the **5th Grade Essay Contest** with winners reading their work at a special school year ending assembly.

"Compassion is not a religious business, it is human business; it is not luxury, it is essential for our own peace and mental stability; it is essential for human survival." Dalai Lama

Our goal is to change the tide of violence into a culture of Peace by moving mankind

From the Love of Power to the Power of Love.
